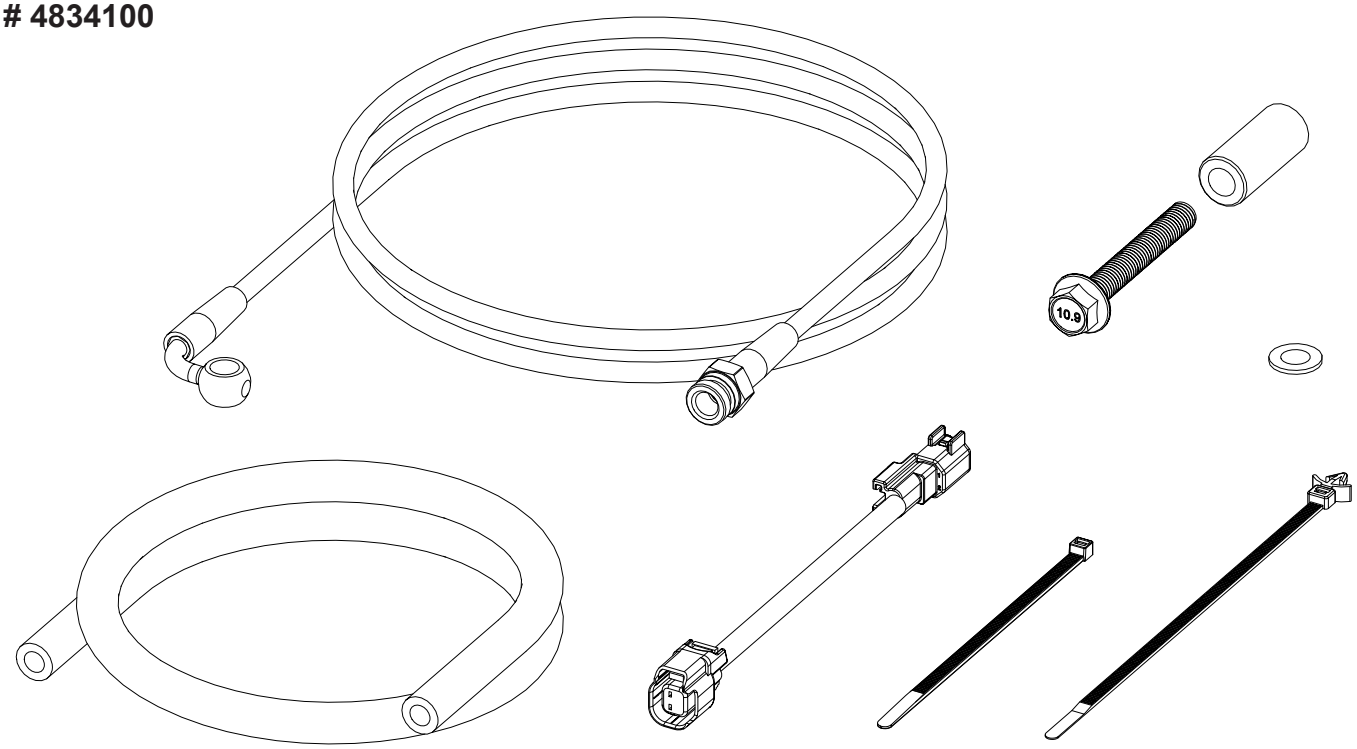
JT Extended Travel Accessory Kit

www.TERAFLEX.com

 # 4834100



Important Notes:

Prior to beginning this install, or any installation, read the instructions thoroughly to familiarize yourself with the required steps. Evaluate if you are experienced and capable to personally perform these modifications. A factory service manual should be used in conjunction with these installation instructions.

This product will change the highway handling characteristics of your vehicle, exercise caution. After altering the suspension it is always advisable to have an alignment done by a competent 4 wheel drive shop or by an alignment shop that is experienced with lifted 4 wheel drive vehicles.

Refer to the parts list to ensure that all necessary components and hardware has been included. If any parts are missing please contact your local TeraFlex dealer for assistance.

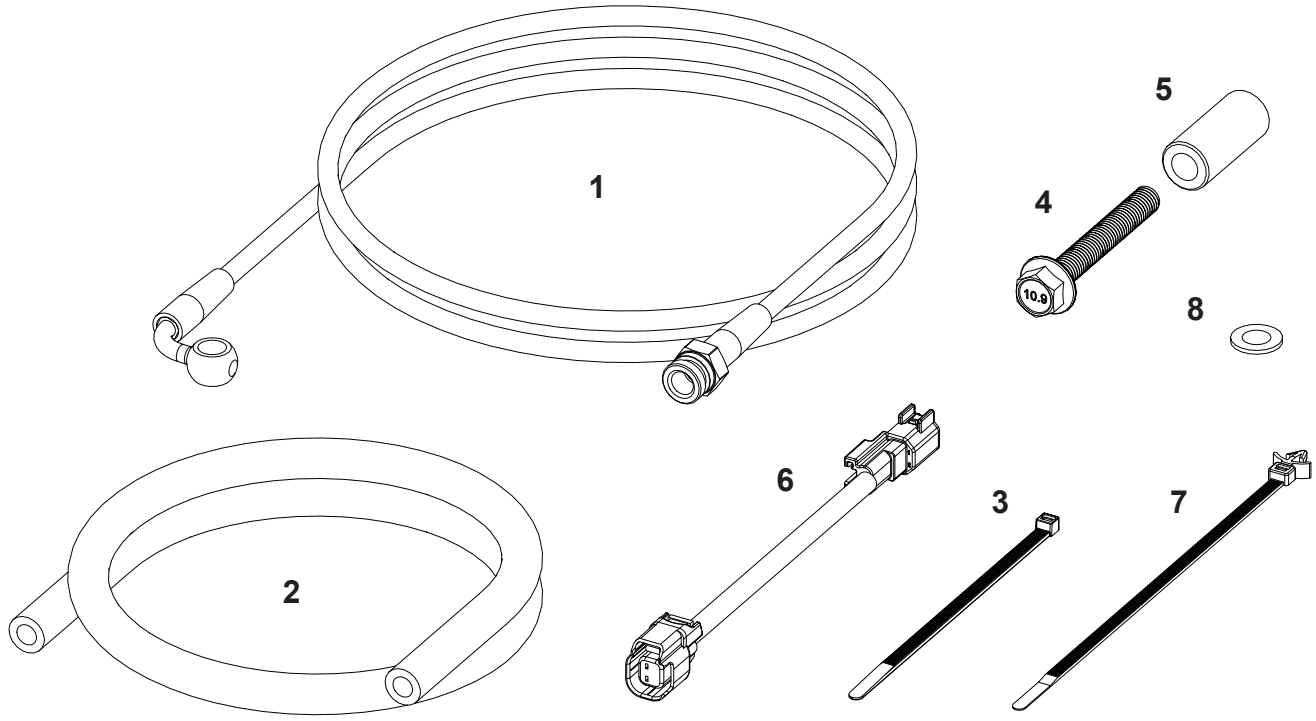
When reinstalling OEM hardware, refer to the torque specs given in the Factory Service Manual.

Tools Needed:

- **Metric Sockets and Open End Wrenches**
- **General Mechanics Tools**
- **Torque Wrench**
- **Factory Service Manual**

Maintenance Note:

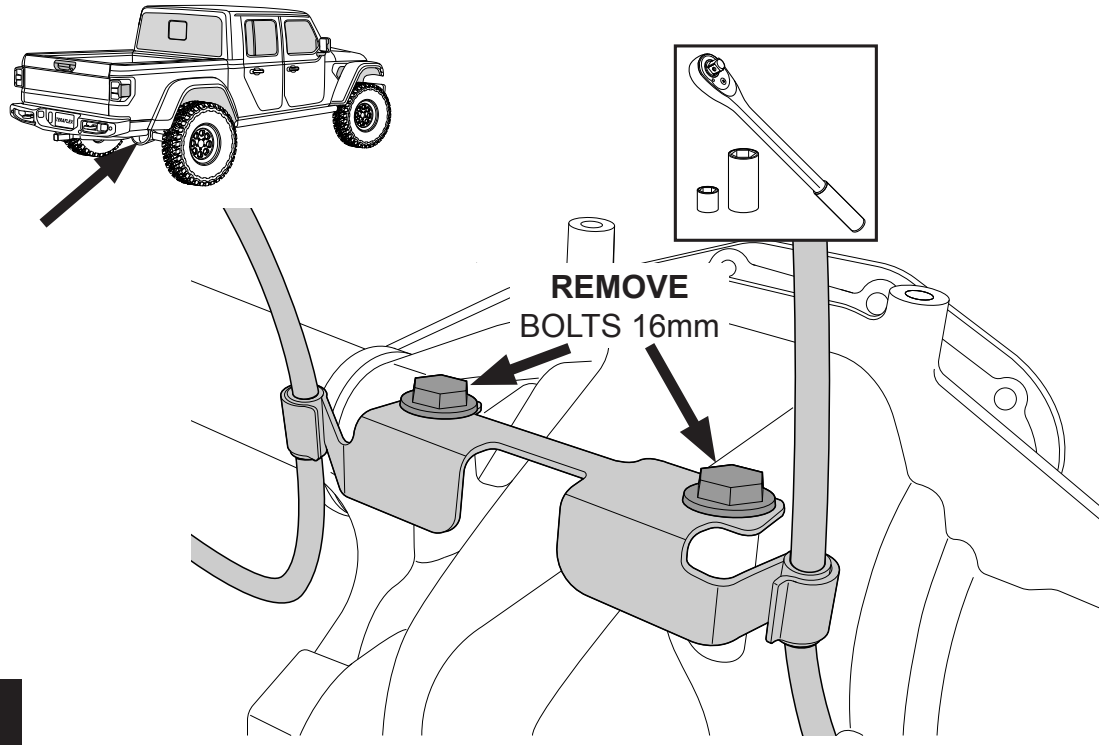
After the first 300 miles and every 3,000 miles after that, re-torque all the suspension components and bolts.



JT Extended Travel Accessory Kit - 4834100			
Item #	Part No.	Description	QTY
1	17-01-109-001	Brake Line, Braided SS, Rear / Jeep JT Gladiator, 33" Length	2
2	18-02-001-001	Hose, Breather, Nitrile/PVC, 9/16" OD X 3/8" ID X 16" Length	1
3	21615	Tie, Cable, 5.5" Long, .14" Width	4
4	45-02-005-009	Hardware, Hex Flange Bolt , Alloy steel, M10 x 1.50 x 70mm	2
5	56-08-17-042-2-1	Spacer, 0.75" OD, 1.70" Length, .420" ID, Aluminum, No Finish	2
6	59-09-001-001	Electrical, Wire Harness, JT ABS, Harness Extension	2
7	59-17-01-001	Electrical (S), Fastner, Cable Tie, 7" / Push Mount	2
8	86291	Washer 3/8" Copper Banjo Bolt Washer	4

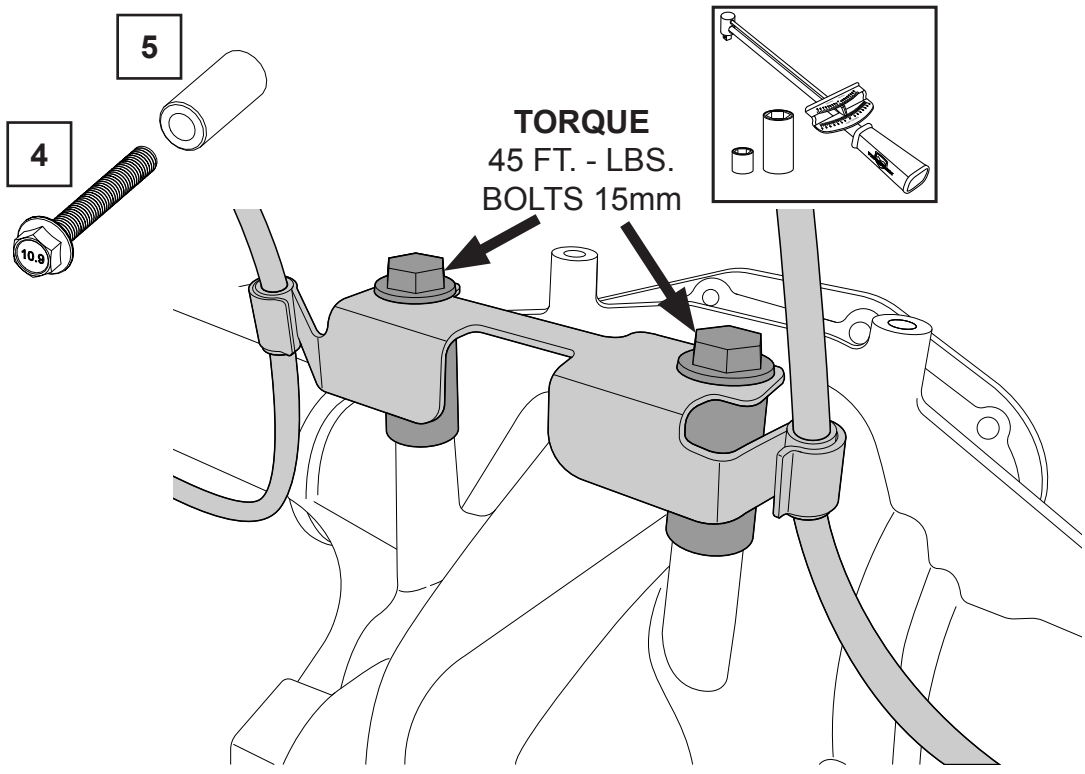
PARKING BRAKE CABLE BRACKET SPACERS

REMOVE THE PARK BRAKE BRACKET BOLTS AT THE AXLE



1

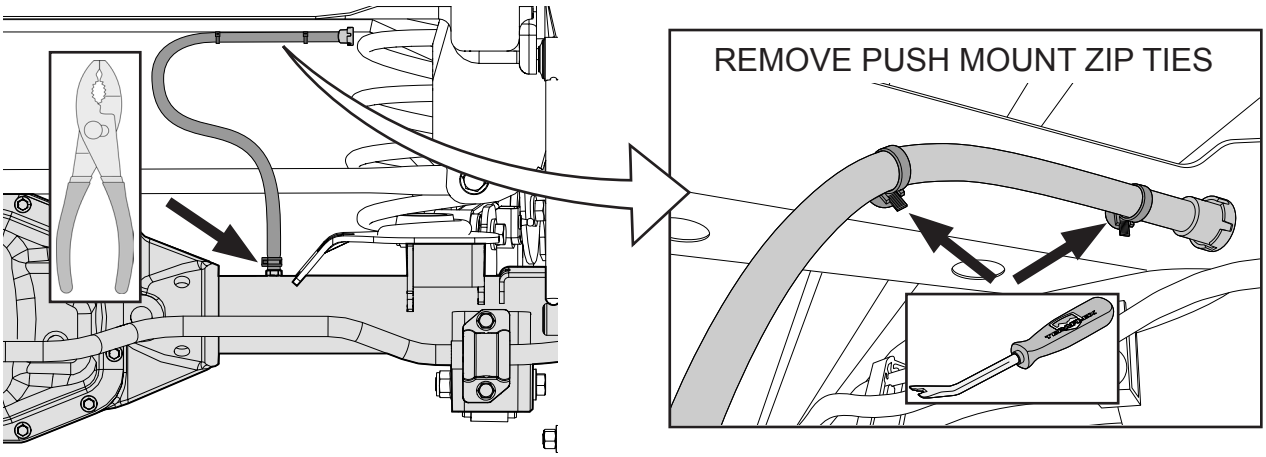
INSTALL THE PROVIDED SPACERS AND M10 BOLTS



2

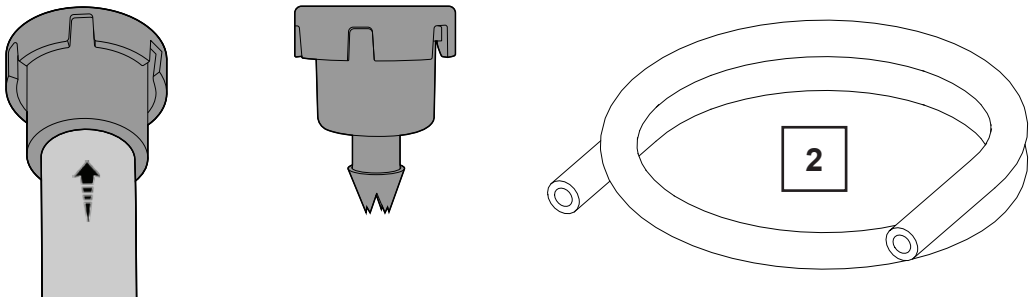
BREATHER HOSE

REMOVE BREATHER HOSE FROM AXLE AND BODY



3

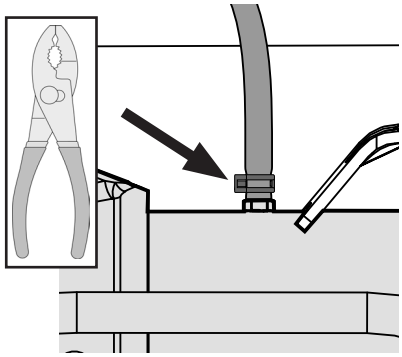
REMOVE BREATHER CAP AND INSTALL ONTO NEW BREATHER HOSE

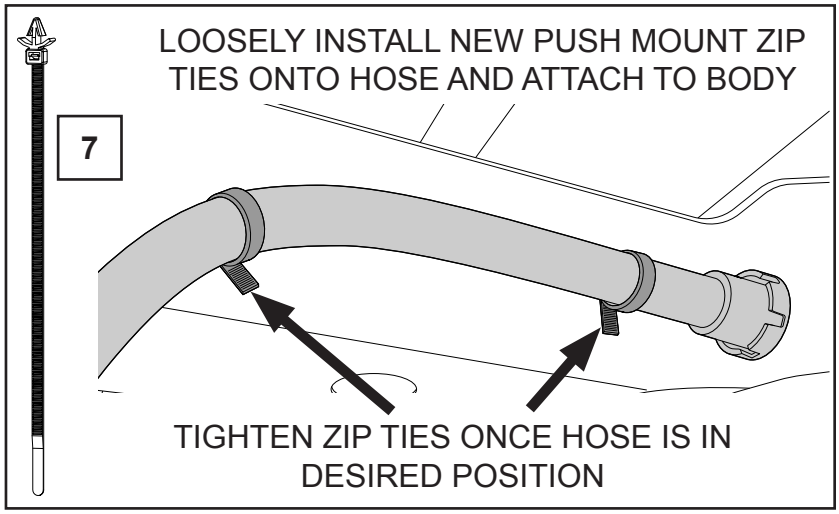


4

INSTALL NEW BREATHER HOSE

INSTALL HOSE CLAMP
ONTO NEW HOSE

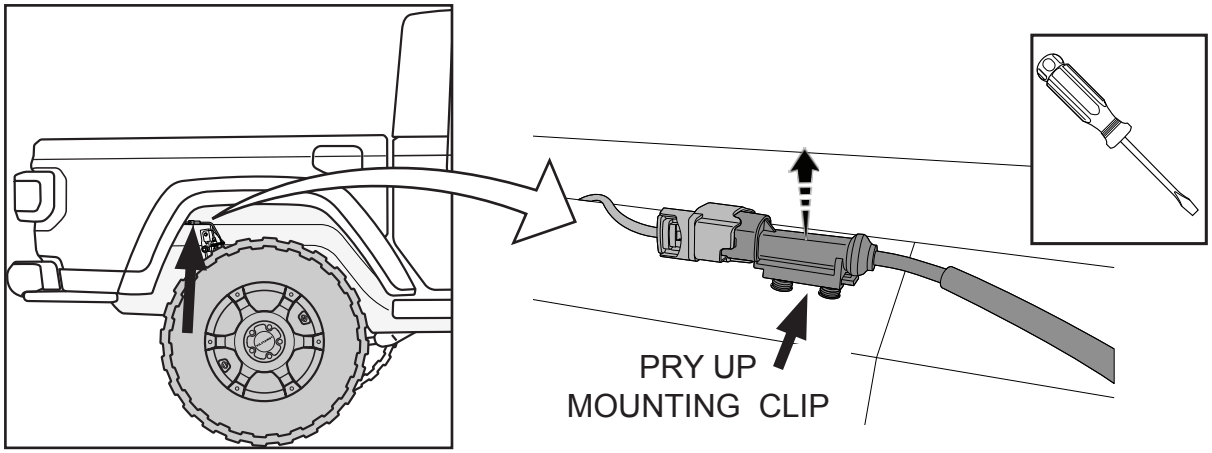




5

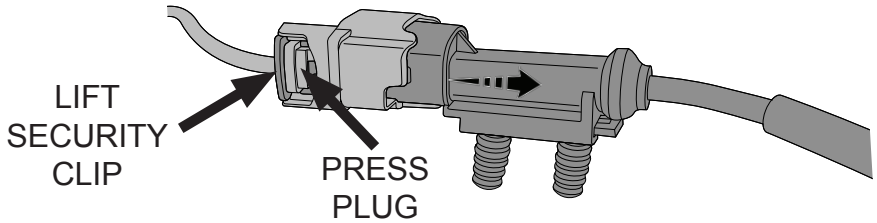
WIRE HARNESS EXTENSION

REMOVE HARNESS FROM THE FRAME



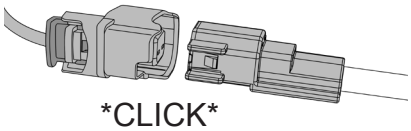
6

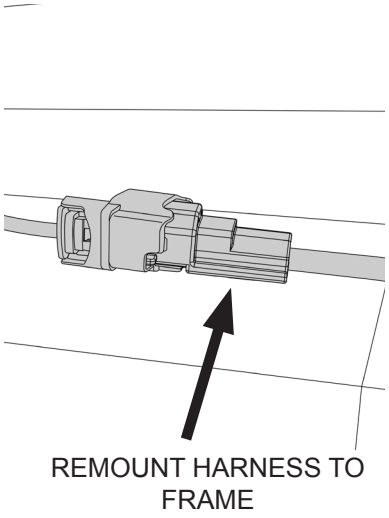
DISCONNECT THE PLUG



7

PLUG IN EXTENSION AND REMOUNT HARNESS TO FRAME



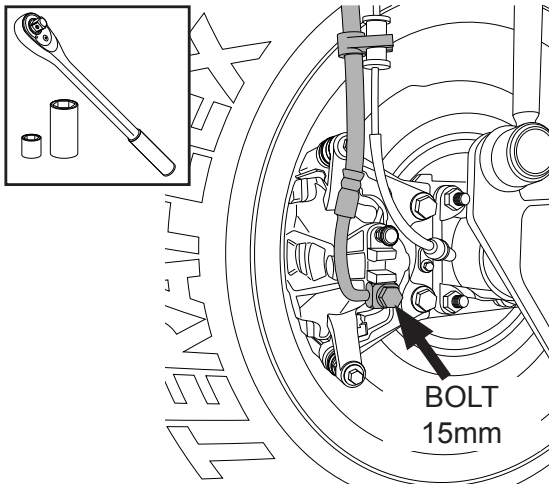


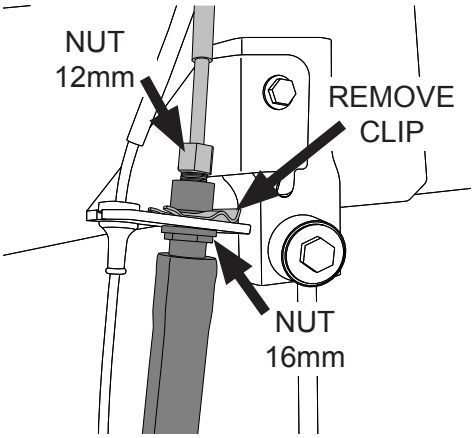
NOTE: CABLE MANAGEMENT WILL BE HANDLED AFTER THE INSTALLATION OF THE STAINLESS STEEL BRAKE LINES

8

STAINLESS BRAIDED BRAKE LINE KIT

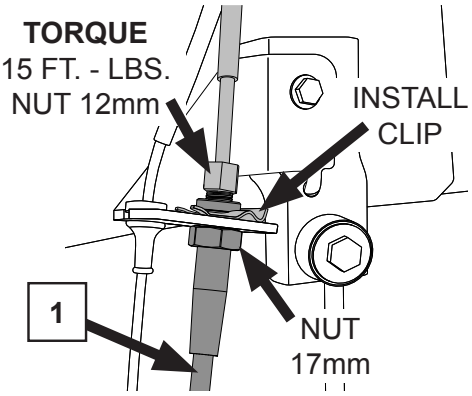
REMOVE DRIVER SIDE BRAKE LINE

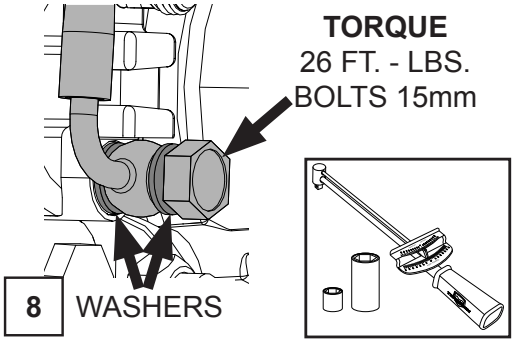




9

INSTALL DRIVER SIDE BRAKE LINE





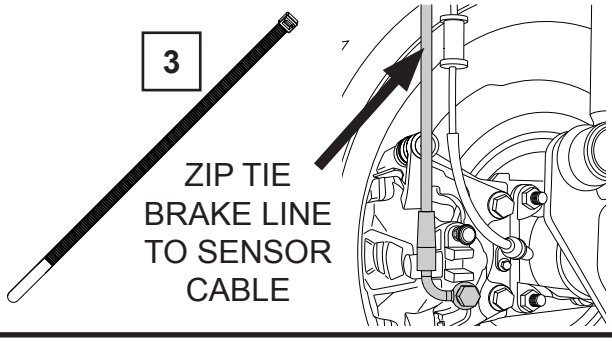
REPEAT STEPS 1 AND 2 ON PASSENGER SIDE

BLEED THE BRAKES (MANUAL METHOD STEPS ON NEXT PAGE)

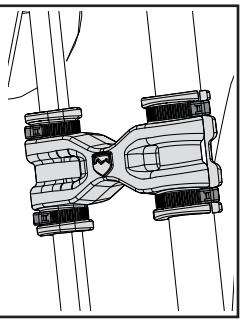
NOTE: IF AVAILABLE USE A COMPUTER SCANNER TO HAVE THE ABS SYSTEM BLEED THE BRAKES

10

USE ZIP TIES TO SECURE ABS SENSOR CABLE TO BRAKE LINE



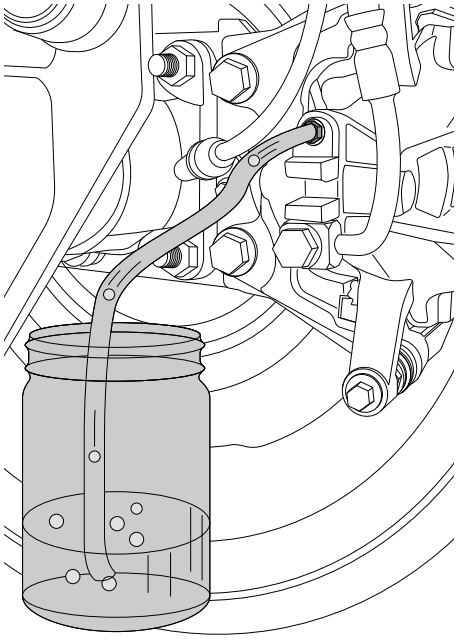
FOR THE BEST CABLE MANAGEMENT WE RECOMMEND USING OUR UNIVERSAL REAR BRAKE LINE ANCHORS KIT #1101455



11

MANUAL METHOD OF BLEEDING THE BRAKES

1. **FILL BRAKE RESERVOIR WITH APPROVED BRAKE FLUID**
2. **READY A CONTAINER WITH SOME BRAKE FLUID TO CATCH THE BRAKE FLUID**
3. **STARTING WITH REAR PASSENGER ATTACH BLEED HOSE TO BLEED SCREW AND SUBMERGE OTHER END OF BLEED HOSE INTO BRAKE FLUID**
4. **OPEN THE BLEED SCREW**
5. **HAVE A HELPER SLOWLY PRESS DOWN ON THE BRAKE PEDAL UNTIL IT REACHES BOTTOM *KEEP BRAKE PEDAL DOWN***
6. **CLOSE THE BLEED SCREW**
7. **HAVE HELPER RELEASE THE BRAKE PEDAL AND SLOWLY PUMP BRAKE PEDAL 3 - 4 TIMES**
8. **REPEAT STEPS 4-7 UNTIL NO MORE AIR BUBBLES ARE VISIBLE IN BLEED HOSE (REFILL BRAKE RESERVOIR AS NEEDED)**
9. **TORQUE BLEED SCREW TO 7 FT - LBS**
10. **REPEAT PROCESS FOR THE REAR DRIVER BRAKE**



NOTE: USE CAUTION WHILE TAKING THE JEEP FOR IT'S FIRST DRIVE.

NOTE: IT MAY BE NECESSARY TO REPEAT THIS PROCESS ON ALL FOUR BRAKES TO PURGE ALL THE AIR FROM THE SYSTEM.

NOTE: REFILL RESERVOIR AS NEEDED. IF BRAKE RESERVOIR GETS TO LOW ALL 4 BRAKES WILL NEED TO BE RE-BLED

NOTE: WHEN BLEEDING ALL 4 BRAKES, DO SO IN THIS ORDER: REAR PASSENGER, REAR DRIVER, FRONT PASSENGER, THEN FRONT DRIVER.

TERAFLEX

PRODUCT INFORMATION

MAINTENANCE INFORMATION:
It is the buyer's responsibility to have all suspension, drivetrain, steering, and other components checked for proper tightness and torque after the first 100 miles and every 3000 miles after that.

NOTICE TO INSTALLER:
The enclosed "Warning to Driver" sticker must be installed in the vehicle in driver's view. This sticker is to act as a constant safety reminder when operating the vehicle. It is your responsibility as the equipment installer to install the provided sticker and to forward the product instructions to the vehicle's owner for review. If a "Warning to Driver" sticker or product installation guide were not included in the kit, FREE replacement stickers and instructions are available by request. It is the installer's duty to ensure a safe and controllable vehicle after the modifications have been performed.

WARNING:
Neither the seller nor the manufacturer will be liable for any loss, damage, or injury directly or indirectly arising from the use of or inability to determine the use of these products. Before using, the user shall determine the suitability of the products for its intended use, and the user shall assume all responsibility and risk in connection therewith.

WARNING TO DRIVER:
This vehicle has been modified to enhance off road performance and has unique handling characteristics. Use in harsh environments can cause extreme stress on the components. Vehicle should be inspected after being off road to make sure that all the components are in working order and safe to travel on the highway. All fasteners should be checked so that they are at the correct torque specifications as the vibration and stresses from off roading may cause critical fasteners to work loose. Extra care should be taken to inspect the critical components, steering, and brake systems. During each oil change components such as arms, tie rod ends, etc should be greased and checked for excessive wear. Any worn components should be replaced. When returning to the pavement always set or restore tire air pressure to the factory recommendation and connect or engage any disabled sway bar mechanisms. Because of the higher center of gravity and larger tires, this vehicle handles and reacts differently than many passenger cars, both on and off road. You must drive it safely! Extreme care should be taken to prevent vehicle rollover or loss of control, which can result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers. Generally, braking performance and capabilities are decreased when significantly larger/heavier tires are used, especially when used in combination with transfer case low-range reduction kits. Take this into consideration while driving. Do not add, alter or fabricate any factory or aftermarket parts to increase vehicle height over the intended height of the TeraFlex product purchased. Mixing component brand is not recommended. TeraFlex Inc. will not be responsible for any altered product or any improper installation or use of our products. We will be happy to answer any questions concerning the design, function, and correct use of our products. It is ultimately the buyer's responsibility to have all bolts/nuts checked for tightness after the first 100 miles and then every 3000 miles. Wheel alignment, steering system, suspension and drive line systems must be inspected by a qualified professional mechanic at least every 3000 miles.

TERAFLEX PRODUCT WARRANTY:
TeraFlex Inc. warrants TeraFlex Suspension products to the original retail purchaser to be free of defects in material and workmanship for as long as the original purchaser owns the vehicle on which products were originally installed.
Failure to complete regular maintenance (grease every 3000 miles) on TeraFlex FlexArms will void this warranty. All other conditions of the standard TeraFlex product warranty apply.
All TeraLow products are covered by the TeraFlex two (2) year warranty to be free of defects in material and workmanship for two years from date purchased.
TeraFlex axles are covered by a 12-month warranty to be free of defects in materials and workmanship.
This warranty does not cover or include product finish, improperly installed or applied products, improperly maintained products, products or components used for racing or competition or damage due to abuse or neglect, products that fail due to the use of larger tire and wheel combinations.
All returns must be accompanied by an original invoice. It is the customer's responsibility to remove the product from the vehicle. Shipping charges are the responsibility of the customer. TeraFlex Inc. will pay the return freight if the product meets the terms of warranty.
This warranty is for the replacement or repair of defective TeraFlex products only and does not include freight charges, labor charges for removal of or installation of TeraFlex or related products or components, costs incurred due to down time of the vehicle, or lost profits due to vehicle down time.
A returned goods authorization number (RGA#) must accompany any returned products. For more information please contact a TeraFlex customer service representative.
